

TOM NEWBY SCHOOL

Subject	Geography	Examiner	Miss M Albertyn
Date	June 2021	Total marks	50
Grade	7	Duration	1½ hours
		Moderator	Miss M Botha
Special instructions/ Equipment			

This Exam has been compiled using notes and information contained in the Tom Newby School book. The marking memorandum has been compiled accordingly. While alternative responses will be given due acknowledgement, the official memorandum will be considered a priority document to ensure uniformity of marking.

NAME: _____

CLASS: 7 _____

Instructions

- Read the questions carefully.
- Look at the mark allocation.
- Answer all the questions and work neatly.
- Think carefully before you answer.
- Breathe, relax and best of luck!

SECTION A

MAPWORK

[25]

Question 1

[13]

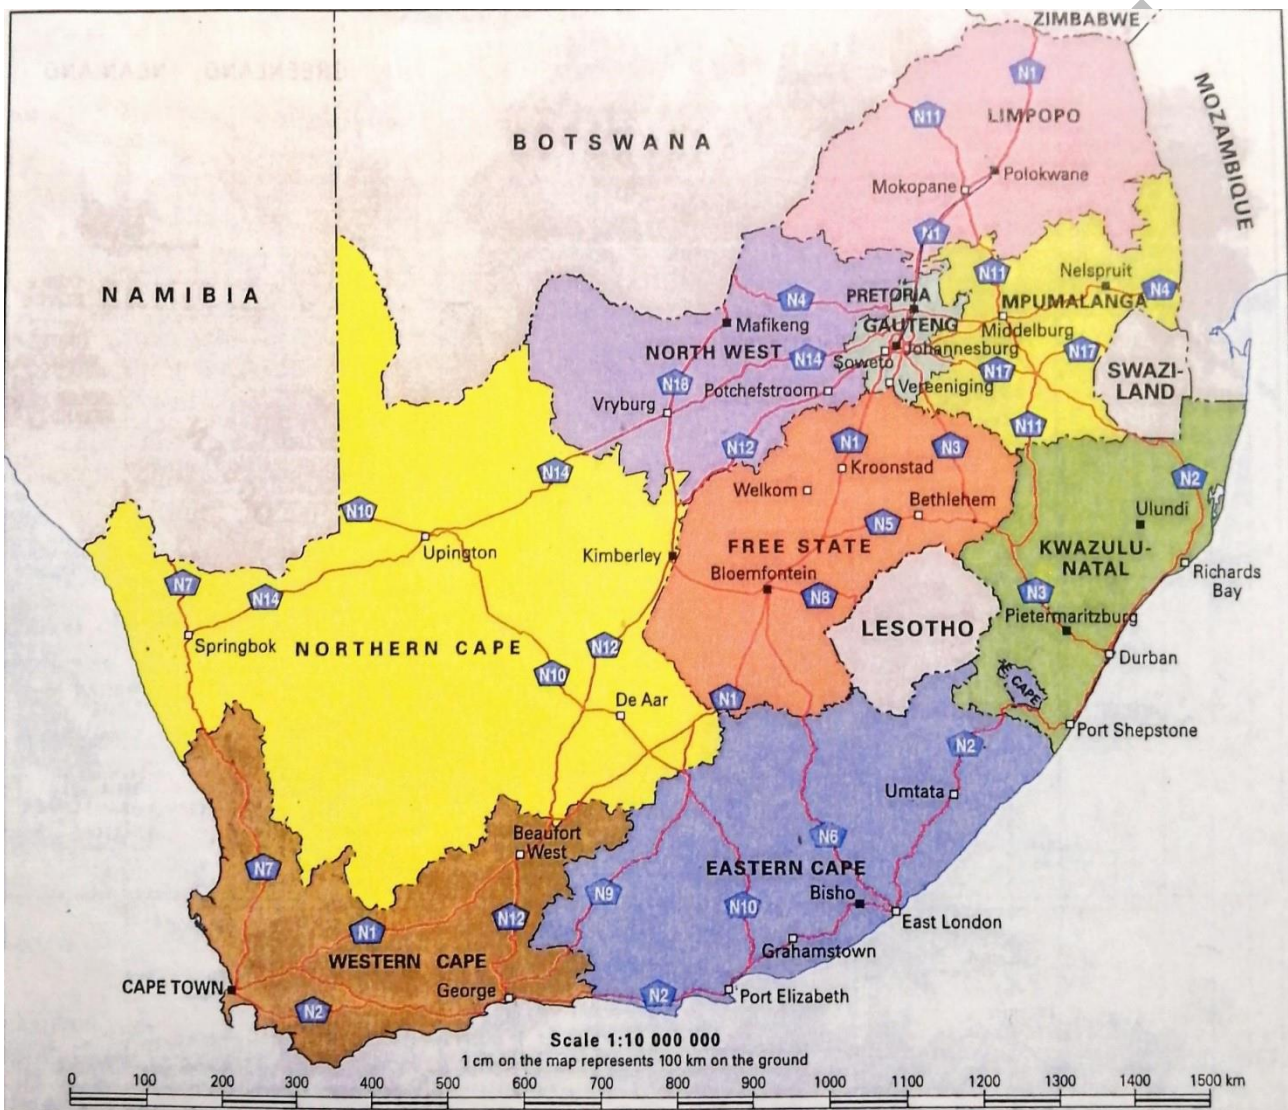

1. Study the map of South Africa on page 2 carefully and answer the questions that follow.

1.1 Explain exactly what the line scale on the map means. (1)

1.2 Name the country which lies NW of Gauteng. (1)

1.3 Name two map conventions which are not on this map. (2)

Map of South Africa

1.4 Compare a small scale map and a large scale map. Mention one difference. (2)

(2)

1.5 Which 2 **countries** are surrounded by the provinces of South Africa? (2)

1.6 Use the 8 compass points. In which direction will you be travelling from:

- a. Upton to Ulundi (1)

- b. Bloemfontein to Johannesburg (1)

- c. Nelspruit to Kimberley (1)

- d. George to Springbok (1)

- e. Free State to Eastern Cape (1)

Question 2

[12]

2.1 **Show your working out!** If the road was absolutely straight, what would the distance (in kms) be from:

- a. East London and Port Shepstone (2)

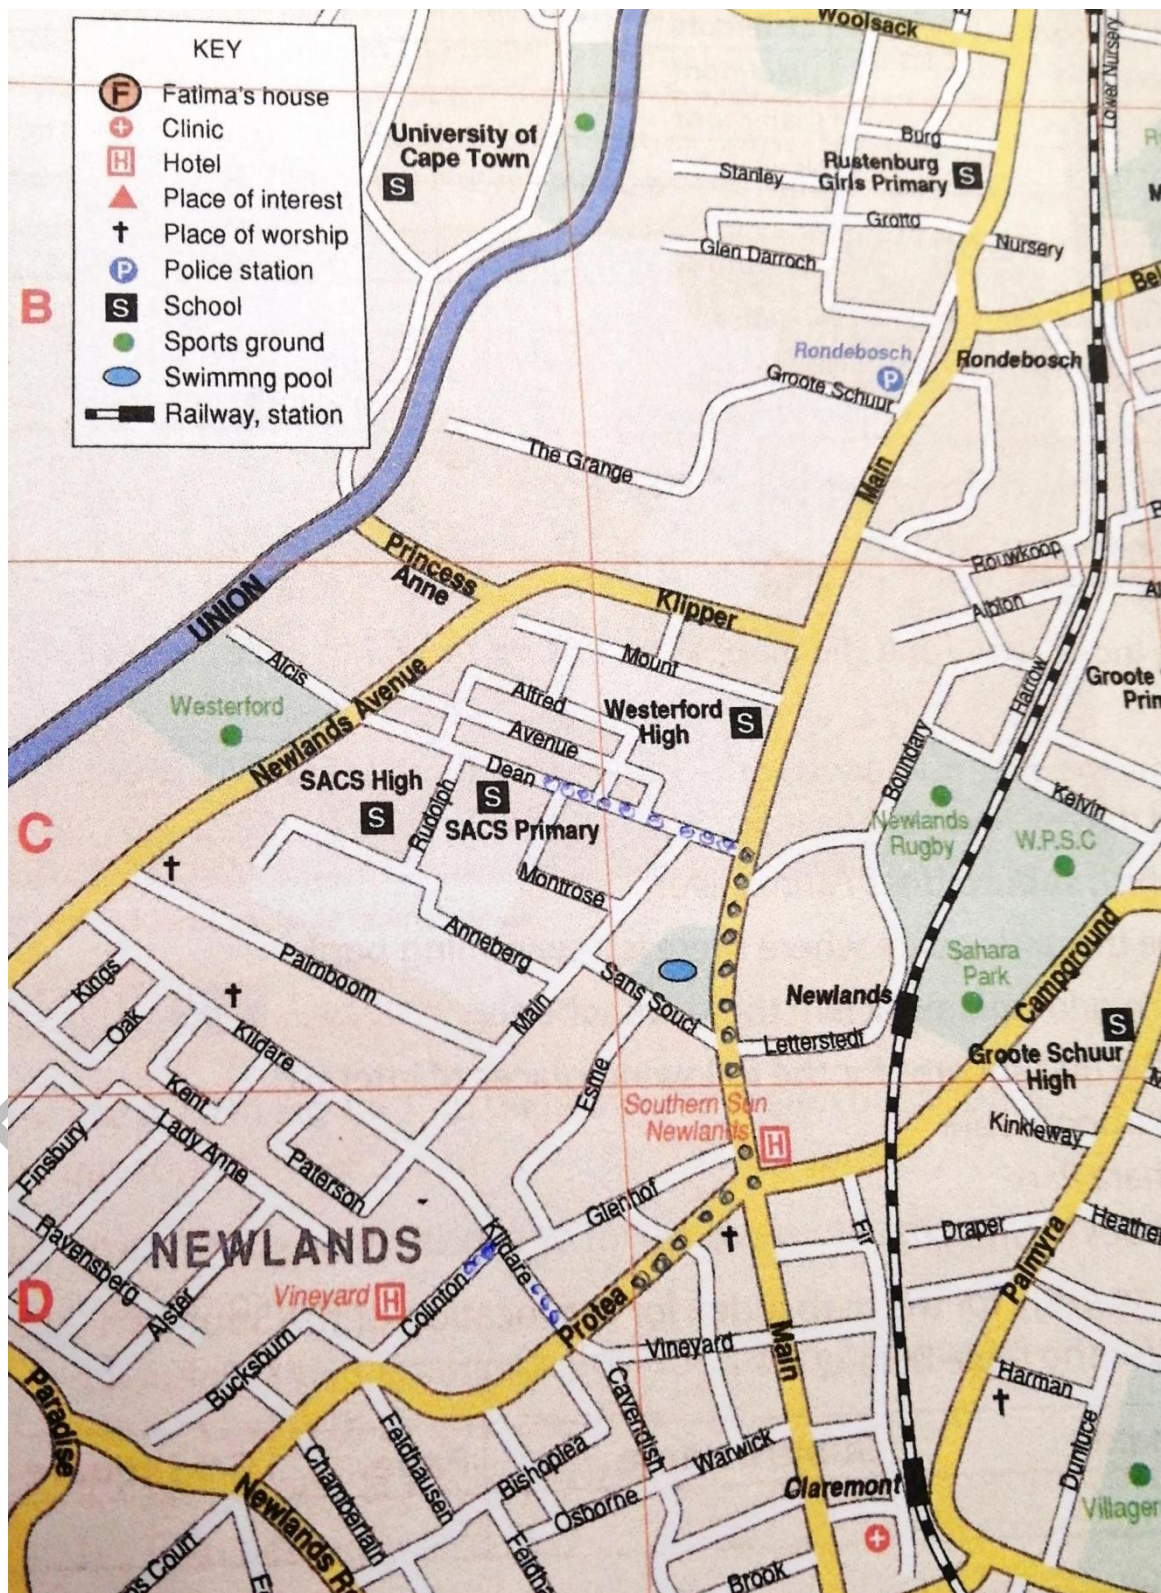

- b. Welkom and Vryburg (2)

- c. Vereeniging and Umtata (2)

- d. Kimberley and De Aar (2)

2.3 Directions

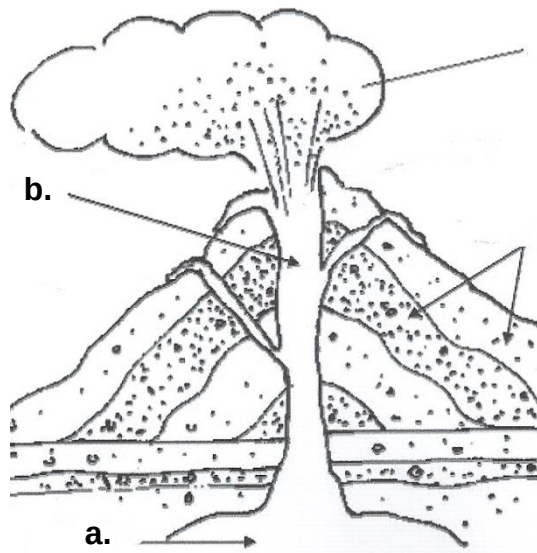

Study the map of a part of Cape Town below carefully. Give directions (without using compass points) from SACS Primary School to the Vineyard Hotel. Include 2 landmarks in your directions. The route has been marked on the map for you.

(8 ÷ 2 = 4)

SECTION B**NATURAL DISASTERS****[25]****Question 3: Volcanoes****[3]**

State what the letters a, b and c, on the diagram, represent.

- a. _____ (1)
- b. _____ (1)
- c. _____ (1)

Question 4: Case study on floods**[3]**

Read the case study about the floods that took place in 2008. Answer the following questions.

- 4.1. Why did the Cape Flats suffer the most damage from the floods? (1)

4.2. Why was the N7 closed?

(1)

4.3. Why are accidents likely to occur during a flood?

(1)

Case Study: Cape Town Floods

"Thousands displaced by Cape floods." This was the headline in the *Mail and Guardian* newspaper on 7 July, 2008.

About 16 000 people were displaced and 3 500 structures damaged when Cape Town was hit by torrential rains causing flooding in many areas. The worst hit area was the Cape Flats. As the name suggests it is a low-lying flat expanse of land and the water has little place to run away.

On the day after the terrible storm some residents from Langa were seen wading through a stream of water on their way to work.

Flooding in a Cape Town informal settlement

Flooding in a suburb

Source: Gallo/Getty Images

In Citrusdal in the Southern Ceder Mountains, a bridge across the Olifants River was washed away. One man drowned as he tried to cross it. The N7 between Citrusdal and Clanwilliam, 100 km north of Cape Town, had to be closed because a dam wall in the area collapsed and the road was flooded. About 40 traffic accidents were reported as motorists and pedestrians had to cope with traffic lights not working. Disaster Management teams, NGOs and the City of Cape Town worked together to help the victims who had been displaced and about 3 000 people were given shelter and warm meals in community halls.

Question 5: Match the columns

[6]

Match the correct definition in column 1 with the words column 1. Write the correct letter under each number on the answer grid provided.

Definition	Words
1.Organization which assists after a natural disaster	A. Displacement
2.Volcanoes which erupt almost all the time	B. Richter Scale
3.Measures how strong an earthquake is	C. Extinct
4.Volcanoes that are inactive at this time	D. Active
5.Measures movement of the Earth's surface	E. Dormant
6.Forced away from where you live	F. Seismograph
	G. United Nations

1.	2.	3.	4.	5.	6.

Question 6

[13]

6.1 Draw a 'Quake-proof' house and label the 4 most important features needed for the house to withstand an earthquake.

(4÷2=2)

6.2 Examine the map of volcanoes carefully, then answer the questions below.

6.2.1 Why is the area around the Pacific Ocean known as the 'Ring of Fire'?

(1)

6.2.2 On which continent are no volcanoes found?

(1)

6.2.3 What do you think is worse- a flood or a drought?

Explain to support your choice.

(2)

6.2.4 What do you predict for the future of South Africa- will we experience more or less natural disasters? Justify your answer.

(2)

6.2.5 Paragraph

(5)

The number of floods in South Africa is on the increase and flood damage is costly to repair. There is action that the government can take to reduce the damage caused by floods. However, as citizens, also have a responsibility to reduce the negative impact of floods. Write a paragraph to describe how the damage caused by flooding can be reduced or eliminated entirely. Mention at least 5 ways to reduce the impact of floods in our country.
